***Allowable Subject Matter***

Applicant's amendment of 01-29-07 has overcome the previous rejections of 112/1<sup>st</sup> and 2<sup>nd</sup> paragraphs as well as the 103 based on **Myers et. al.** (US'969).

With no other rejection, pending claims 5, 6, 8, 10-12, 14, 16, 19 and 20 are allowed.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

In view of applicant's amendment limiting ring C to pyrazoyl combined with the proviso in claim 20, the teaching of Myers (US'969) no longer renders obvious the instant claims. Note, the closest compound of Myers, namely, 4-(pyrazol-3-ylamino)-6,7-dimethoxyquinazoline hydrochloride, differs from the instant formula II at the linking group Zb, and the substituents at R<sup>2</sup> (or the 7-position) in which alkyl, alkoxy have been excluded. Although the generic teaching of Myers allows for certain substituents at the 7-position, none of the species has such a substituent at any of the benzo ring portions, much less particularly at the 7-position. Thus, the teaching of Myers et. al. is too diffuse for a prima facie case of obviousness.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
